

# The Global Public Health HIV & Substance Use Research Seminar

Co-presented with the HIV Institute Seminar Series and the San Diego Center for AIDS Research

**TUESDAY, OCTOBER 15, 2019**

**TIME:** 1:30 PM – 3:00 PM

**LOCATION:** Medical Education and Telemedicine (MET), Rm. 143. Please [RSVP Eventbrite](#)  
Or join by Zoom: <https://uhealth.zoom.us/j/290092859>

**TOPIC:** Inclusion Health: Reaching the Hard-to-Reach to Identify and Address Health Disparities

## PROF. ANDREW HAYWARD, MD, MSC

Director, Department of Epidemiology & Public Health, University College London

Professor Andrew Hayward is Director of the UCL Institute of Epidemiology and Health Care, one of the largest institutes focusing on Public Health and Health Service Research in Europe. Dr. Hayward trained in medicine and subsequently as an epidemiologist and Public Health Physician. His early research focused on epidemiology and control of infections of public health importance including tuberculosis, influenza and antibiotic resistance. A major part of this work has been in close collaboration with the UCLH Find & Treat Service to support the development and evaluation of effective interventions for Inclusion Health Groups such as people experiencing homelessness, drug users and prisoners. As Co-Director of the UCL Institute of Health Informatics, his research group formed the UCL Centre for Public Health Data Science. In recent years Andrew focused on Inclusion Health. In partnership with Dr. Alistair Story, Dr. Hayward co-founded and co-directs the UCL Collaborative Centre for Inclusion Health.

## PROF. ALISTAIR STORY, PHD

University College London

Professor Alistair Story is the Founder and Clinical Lead of the pan-London UCLH Find & Treat Service. Working in partnership with Dr. Hayward, they have a 20-year track record of translational research and health service innovation with excluded and marginalized populations. His research interests include Inclusion Health, Health Service models, integrated outreach, point of care diagnostics, peer led interventions, and using mobile digital technologies to promote engagement and treatment continuity. He was elected Fellow by Distinction to the Faculty of Public Health in 2015 and is an original member of the UK Faculty for Homeless and Inclusion Health and the Pathway Team. He is UCL Associate Professor of Inclusion Health (honorary) and co-founded and co-directs the UCL Collaborative Centre for Inclusion Health with Professor Andrew Hayward.

The HIV Institute (THI) Seminar Series is designed for physicians, pharmacists, scientists, researchers, trainees, and nursing professionals. After attending THI's Seminar Series, participants should be able to:

- Integrate the latest scientific research into the prevention and management of HIV infection with antiretroviral therapy
- Demonstrate application of scientific methodology to clinical situations
- Know and apply the basic sciences which are appropriate to their discipline
- Demonstrate effective communication skills with professional associates

The University of California San Diego School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of California San Diego School of Medicine designates this live activity for a maximum of **1.0 AMA PRA Category 1 Credit™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The 2019 THI Seminar Series is supported in part by educational grants from the following companies: Gilead Sciences and Janssen Therapeutics, Division of Janssen Products, LP.
